Conference of Mr. Bryan's Supporters Far from Harmonious.

CHICAGO. Nov. 25 .- The advertised unanimity of the silver forces did not materialize at the meeting of the leaders in general conference at the Sherman House this afternoon. The meeting was called for the purpose of hearing the report of the committee appointed to consider the best means of carrying on the work for free silver throughout the country. The report of the committee was heard and adopted by a majority of the meeting, but not without an indignant protest from a lively minority that gave every promise of making trouble The meeting was called to order by General C. H. Howard, who explained the difficulty of combining the diverse elements in favor of free silver on political lines without first organizing a campaign of education. He then called for the report of the committee, which was read, to be adopted section by section, by E. C. Towne, its framer. The first section was adopted, and to facilitate metters, E. E. Bishop moved the adoption of the entire report. Then the minority of dissenters showed its hand and a hot fight was on. The report was, however, adopted, and the minority left the meeting. The report set forth that no new political party seemed to be called for, and professed loyalty to William J. Bryan, and declared in favor of a campaign of education. The rest of it was unimportant. The nembers of the minority declare the committee which made the report is self-appointed and asserts that it will fight against it to the end.

AMERICAN COMMON SENSE.

Speech by the Hon. W. B. Hornblower at a New York Banquet.

NEW YORK, Nov. 25 .- The one-hundredand-thirteenth anniversary of the evacuation of New York by the British was celebrated by the New York State Society Sons of the Revolution at Delmonico's to-night. The principal speaker was William B. Hornblower, who responded to the toast "American Common Sense." He said in part: "What of the future? Suggestions are made that old party lines must be ndoned, and that all men who are in favor of sound currency and of honest enforcement of public and private obligations and of the maintenance of law and order ild combine in one party against the elements of discontent and dishonor and dishonesty. Such a result would be most unfortunate. If the day shall ever come when sober-minded men are on one side and all extremeists and revolutionists of the other side, lined up in party alignments, the knell of republican institutions will have sounded. Our form of government Our form of government cannot continue unless there are two great parties, who are divided upon questions on which men of sound judgment and honest principles can fairly differ. I believe that party lines will be reformed, based on the same general lines of division that have heretofore separted the two great parties. and I believe that thus and thus only can our instituions be preserved.

TRIBUTES TO GOLD DEMOCRATS. Letters from Mark Hanna and Vice

President-Elect Hobart. NEW YORK, Nov. 25. - A dinner was given to-night to Major John Byrne, the president of the Democratic Honest-money League, at the Waldorf Hotel by the executive committee of the league. The following letter was received from Mark A. Hanna:

"I regret that I cannot accept the kind invitation to be with you Wednesday evening to honor your guests, Major Byrne and his associates. No one knows better than I of the great work they did during the campaign, and none can appreciate more the influence for good to the cause as the result of their labor. Therefore, I desire to add my testimony and join in the toasts. The following was received from Garret

A. Hobart: "I have received your invitation to at tend the dinner to be given to Major Byrne at the Waldorf on Wednesday evening Nov. 25, and it is with much regret that I am compelled to decline. I have made it a rule to decline all invitations received folly for Spain to talk about going to war since the 3d of November, for they were so numerous and from such good friends that I would not accept a few, while offending possibly, many others. I hope you will accept my excuses and assurances that I would delight in honoring Major Byrne for the good work for the Democratic Honest-money League and for himself."

THE RAILWAY VOTE.

Analysis That Shows It Went Largely to the Sound-Money Candidates. CHICAGO, Nov. 25 .- The Railway Age, in its issue of this week, will publish detailed analysis of the railway vote in the recent election. The paper will say: "In all there were six hundred railway men's sound-money clubs organized during the campaign. Two hundred of these, with a membership of 100,000, were distributed eral Weyler a free hand in the task of among twenty-three large cities, through the various wards and precincts of which the members were so scattered that i would be impossible to arrive at any close stimate of the weight of the influence of the railway men. From 150 other club points the returns are given in detail in imparison with the vote of 1892. These 150 club points in 1892 gave a Democratic majority of 9,956. This was converted in 1896 into a Republican majority of 149,274. There was an increase in the total vote of 136,502, an increase in the Republican vote cast of 147,866 and an actual Democratic falling off from the vote of four years ago of 31,364. The Republican net gain at 134 points was 160,981. Deducting the Democratic gain at the remainder of the 150 club

points, the net Republican gain was 159,230 A Warning Against Trusts.

KANSAS CITY, Nov. 25 .- Something of a stir was created among the gold standard Democrats here to-night by the reading of a spirited letter from Hon. D. R. Francis, secretary of the interior, at a banquet held in celebration of the recent defeat of free silver. After referring to the result of the recent election and deciaring that in his opinion it settled the financial quetion at east until the existing standard shall have been given a fair and thorough trial, Secretary Francis said: "While I agree with the advocates of sound money in its fight made, there are many principles advocated by some of those who have been advocates of that cause to which I cannot subscribe. If some legislation is not enacted to check the growing influence of wealth and circumscribe the powers of the trusts and monopolies, there will be an uprising of the people before the century closes which will endanger our institu-

Hawaiians Rejoiced.

SAN FRANCISCO, Nov. 25 .- The residents of Honolulu and the Hiwaiian Islands were informed of the result of the presidential election in the United States Nov. 16, when the Pacific Mail steamer City of Peking arrived there from Yokohama. There was great rejoicing over McKinley's election. A big joilification was held in Honolulu in the evening. The Oceanic steamship Australia tried to get to Honolulu with news from this side first, but did not arrive there till the 17th. There was considerable betting in Honolulu as to which ship would be first to tell the result. The Australia was confident of victory, and entered Honolulu with large banners announcing McKinley's election hanging from ier side. Her officers felt much chagrined when they learned on docking that their news was stale.

An Honorable Democrat. RICHMOND, Va., Nov. 25 .- Hon. H. D. A NARROW ESCAPE.

Captain of a Lake Schooner Saves His Life, but Loses \$150.

TONAWANDA, N. Y., Nov. 25 .- Captain William E. Donnelly, of the schooner Katie Brainard, lumber-laden, from Cheboygan, Mich., which arrived here last night. had a terrible experience during the trip down the lake. While assisting in tightening a rope the rope broke and the captain was thrown into the icy water. A heavy sea carried him close to the rudder of the schooner, where he caught a small chain hanging there. The crew had given him up as lost and it was nearly half an hour before the captain's cries for help were heard. When brought on board he was almost frozen to death. The captain lost \$150 out of his pocket when he went overboard. PITTSBURG, Pa., Nov. 25.-The miners' officials of this district have formally demanded an advance of 6 cents a ton in the price of mining, to take effect on Dec. 1 t is thought the advance will be granted as the operators seem to favor it. The movement for an increase will extend to

NOT HER REAL AFFINITY.

Mrs. Fitschen's Alleged Reason for Deserting Her Husband.

BUTTE, Mont., Nov. 25.-George C. Fitschen, a prominent man of wealth, has commenced suit for divorce against his wife on the ground of desertion. About a year ago Mrs. Fitschen fell a victim to theosophy, and discovered through her new religion that she had made a mistake in marrying Mr. Fitschen, and that her affinity was still waiting for her somewhere, so she left her home, and all in-ducements on the part of her husband have north of the little town of Greensfork, and not been sufficient to get her to return. She has also relinquished all claim to her husband's property.

MINERS' STRIKE PROBABLE.

Diggers in the Monongahela River District Demand the Old Rate.

MONONGAHELA CITY, Pa., Nov. 25.-A delegate convention of the Monongahela river miners was held here to-day for the purpose of deciding whether or not the miners could accept the rate offered by the operators at a conference held in Pittsburg on Monday. Thirty-six delegates were present, representing 6,000 miners. The reports of taining the demand for the \$2.66 rate in the three lower pools and \$2.16 in the fourth pool. A reso ution was adopted to abide by the action of the onvention held here last week demanding the restoration of the old rate and the continuing or operators. A strike is more than probable.

CUBA LOST TO SPAIN.

(Concluded from First Page.) ome. "It is too late," said Mr. Chandler, recognize belligerency. The day for that has gone past." Senator Chandler has no fear of serious consequences for the United States in case we choose to recognize either independence or belligerency If we recognize belligerency," he said 'Spain would not go to war with us unless she were carried away by a frenzy of passion. If we were to recognize independence there would be no cause for us to go to war unless Spain attacked us. It is with the United States. Within three months her navy would be destroyed, her colonies would be in our possession and her own territory would be at our mercy."

Weyler Not Recalled.

MADRID, Nov. 25 .- The premier, Senor Canovas del Castillo, was questioned today on the subject of the contradictory reports circulating as a result of an unexpected return of the captain general of Cuba, General Weyler, to Havana, from Pinar del Rio, where he had been personally conducting the operations of the Spanish troops against the insurgents under Antonio Maceo. The Spanish premier said, in substance, that there was no truth in the report that General Weyler had been recalled, and it was equally untrue that his recall was contemplated. On the contrary, he added, the government had given Gensuppressing the insurrection, and the min isters had confidence that he would be successful.

TORTURED BY SPANIARDS.

Natives of the Philippines Treated Cormick, M. Hiblsmere, the Akron Oil Comwith Extraordinary Cruelty. SAN FRANCISCO, Nov. 25 .- News from Manilla by the steamer City of Peking from Hong-Kong, shows that the Spaniards have resorted to torture of natives and half-castes of the Philippines which surpasses in cruelty that practiced by the Chinese mandarins in cases of the most atroclous crimes. They are also charged with Wabash township, Jay county. This is a confiscating the estates of wealthy half- genuine wildcat, and started at thirty barcastes and deporting those wretched victims to Fernando Po, on the west coast of Africa, a place which has a climate that will quickly prove fatal to the stranger. These statements are not given on the strength of reports of refugees. James W. Davidson, a well-known correspondent, was recently commissioned by the Hong-Kong press to go to Manilla and cautioned to evade the press censorship, and in several letters which he smuggled through the lines he tells of what he has seen and what he has heard on good authority. According to him the instruments of torture used in the Spanish inquisition three centuries ago have been kept in the monasteries of Manilla and were brought out recently and used to extort confessions from native and mestizo suspects who have been arrested and have been kept in jail in Manilla, subjected to hideous treatment. Mr. Davidson also intimates that the leading powers of Christendom will be called on to interfere and put an end to torture which has revived the worst feature of the Spanish Inquisition. A dispatch from Tokio, believed to emanate from a German official source, announces that a Japanese war ship will be sent to the Philippine islands, the latest news from which place is most disquieting. It is stated that the insurgents have won a battle and that an attack upon Manilla. the capital, is feared. A dispatch to Madrid from Manilla, the Philippines, says that Major Artega

has achieved a brilliant victory over the insurgents, who lost 400 men-Movements of Steamers. NEW YORK, Nov. 25.-Arrived: West from Antwerp; Havel, fron ernland. Massachusetts, from London

A DIPHTHERIA EPIDEMIC

LONDON, Nov. 25 .- A Berlin dispatch No MORE SCHOOL IN COLUMBUS UNTIL AFTER CHRISTMAS.

> Factional Strife Threatens to Disrupt Glass-Workers' Union-Cudahys

> > Put \$60,000 in Leases.

Special to the Indianapolis Journal. COLUMBUS, Ind., Nov. 25 .-- The public schools in this city were closed to-day by order of Health Officer MacCoy on account of the prevailing epidemic of diphtheria. Theaters and churches were also closed and all entertainments ordered discontinued. The schools will not open until after the Christmas holidays. A curfew law was put in force to-day, making it unlawful for children under sixteen to be on the streets after 8 o'clock p. m. unless accompanied by their parents or guardian. If the epidemic does not subside all travel to and from the city may be stopped and the entire town placed under quarantine. This is the city where, early in the epidemic, the disease was spread by lovers' kisses. Notwith-standing the stringent orders sent out by the State Board of Health the disease has increased rather than gone down, and it is infered that engaged couples, at least, are still disregarding the State board's rules.

WANTS A WIDOW'S PENSION. Mrs. Smith, Sent Up for Life for Murdering Her Husband.

Special to the Indianapolis Journal. RICHMOND, Ind., Nov. 25 .- Word has been sent out from Hagerstown that Mrs. David Smith, an aged woman living near that place, has applied for a widow's pension. There is nothing very strange in this announcement of itself, but when it is known that the proposed beneficiary was convicted of the murder of her husband, it instantly appears to be a case out of the

The announcement recalls to the minds of most of the older residents of Wayne county and Richmond one of the most bloody crimes ever committed in this part of the State, and by long odds the most brutal murder ever committed in Wayne it has been fifteen years or more since the people of the county were startled by the details of the tragedy. David Smith was one of the popular

farmers of the locality. There were two sons, Dan and Jake, the former distinguished for his bad disposition. It had been known for a considerable time that Mr. Smith and his wife and son Dan were not getting along as peacefully as could have been wished. The son in certain moods was ugly and would refuse to help on the farm. He was rather upheld by the mother, and thus affairs in the household went from bad to worse. Finally, Smith was missed by his neighbors. He had not been seen for several days and almost two weeks elapsed without his being in evidence. Inquiries were made of the wife elder son, but they could not explain his absence in satisany factory manner and search was instituted. A number of the citizens of the town of Greensfork took a leading part in the work and one of them discovered the decomposed body of the farmer at the bottom of a well on the Smith farm a short distance from the barn. An examination of the body showed that the farmer had been shot, struck with an ax upon the head and then thrown into the well. Mrs. Smith and both her sons were arrested and charged with the crime and the night they were brought to this city it was believed an attempt would be made to lynch the

A day or two afterward it was found that Jake, the younger son, was not guilty of any complicity in the crime. He was innocent of any detail of the murder and knew nothing of his father's whereabouts until the body was found. The young man was discharged, but his mother and broth er were found guilty and were sentenced to prison for life. Dan is now at Michigan City and there is no probability that he will ever be released. Mrs. Smith was sent to the Reformatory at Indianapolis and two years ago she was parolled owing to her advanced age and her general physical condition. She resides with relatives near Hagerstown and has now applied for a

Work in the Oil Field.

Special to the Indianapolis Journal. MONTPELIER, Ind., Nov. 25 .- The Indiana field seems to have been struck with the general post-election wave of "confidence and prosperity." Not for two or three months has there been seen such an increase in operations as has taken place within the past two weeks. The oil men of the State were so busy with politics before the election that operations were allowed to lag. The Ohio Oil Company has made a great many new locations for wells, and will start to drill at once. The Northern Indiana Oil Company is also starting several new wells. Other companies drilling are: H. Mount & Co., Bell & Co., J. A. Mcpany and Patterson, Lockwood & Co. have completed well No. 4 on the Spaulding farm, Section 32, Chester township, Wells county, and it is good for twenty-five barrels. A. Urban, Benjamin F. Pyle, Bettman & Co., the Acme Oil Company, the Golden Rule Oil Company, Boyd, Merring & Co., the Richmond Oil Company and the Home Oil Company are also drilling. Schugart & Co. have completed well No. 1 at a new addition to the already extensive Indiana oil field. The Phoenix Oil and Gas Company's wells Nos. and 2, on the B. Pugh farm, in Section 24, Washington township, Blackford county, are good for ten barrels each. The Northern Indiana Oil Company has completed a well on the T. Taylor farm, in Section 20, Nottingham township, Wells county, and it started at fifty barrels. The Union Supply Company has completed Well No. 4, on the A. V. Clark farm, in Section 35, Jefferson township, Huntington county, and it is good for twenty barrels. James Mc-Cormick has just completed two wells on the Studabaker farm, in Van Buren township, Grant county, that are good for forty and fifty barrels a day. The Unique Oil Company's No. 3, John Williams's farm, in Section 8, Jackson township, Jay county, is good for fifty barrels. Bell, Cook & Co. have completed a well on the Karringer farm, in Section 35, Jefferson township, Huntington county, that started at 120 bar-

The Flambeau Case.

Special to the Indianapolis Journal. HARTFORD CITY, Ind., Nov. 25 .- The flambeau case against Andrew J. Townsend was refiled with the Supreme Court today. This is the case brought by State Gas Inspector J. C. Leach, of Kokomo, to test the validity of the statute forbidding the burning of natural gas flambeaux. In the Blackford Circuit Court Townsend was found guilty by a jury, and assessed a nominal fine. This is an important case, and the decision of the Supreme Court is awaited with a great deal of interest by farmers and gas companies throughout the gas belt.

GLASS WORKERS' THANKSGIVING. Happy Day at Hartford City-Simon Burns Blamed.

Special to the Indianapolis Journal. HARTFORD CITY, Ind., Nov. 25 .- The settling of the wage scale will make a joyful Thanksgiving in this city to-morrow. The business men are well satisfied and are glad that the time of resumption is in sight. Never until this year has the real benefit of the big factory on the south side been more apparent. The cutters and flatteners are well pleased at the settlement, while many of the blowers and gatherers who are followers of Burns are dissatisfied. One blower stated here to-day that it was not all over yet. It is thought that when the men are to go to work the blowers and gatherers will refuse to do so and thereby delay manufacturers still longer. There is a strong factional fight in the big union between the cutters and flatteners and the blowers and gatherers, which is being widened each day. It is charged that President Burns favored an advance for the blowers and gatherers and none for the cutters and flatteners. At the local meetings here, a few days ago, when the prestdent was here, many of the cutters and flatteners did not attend or take part, while it is known that the blowers and gatherers held a secret meeting on the south side, in this city, last Tuesday morning. It is said that if this strife keeps up the great union, the wealthlest and strongest in America, will be divided and that the two factions will separate and form two organizations. J. R. Johnston, secretary

turned home this morning from Pittsburg, | Church at Porter, and one of his parishwhere he attended the conference. The Hartford City concern is the largest window-glass factory in Indiana and the third largest in the United States, extends over twelve acres of ground and is of one-hundred-and-eight-pot capacity and employs

Special to the Indianapolis Journal. MUNCIE, Ind., Nov. 25 .- The settlement of the window-glass wage scale has caused general happiness in Muncie, where two big factories have been idle for seven months, but the skilled laborers seem sullen at their defeat for higher wages. President Burns has a big following here and many think that the committee acted too hastily, but all seem glad to once more be assured that they will have work. One of the men, who evidently is not an admirer of the president of the association, to-day said: "We might just as well been working three months ago had not Simon Burns taken advantage of the situation to further his candidacy for re-election. He romised us that in the event of his relection he would get us an increase of 15 per cent, and we believed him and did our part." Thomas Hart, of the Manufacturers' Association of the West, claims that the settlement is a decided victory for the manufacturers inasmuch as the demands of the workers for an advance was

Indiana Glass Men Anxious to Start. Special to the Indianapolis Journal. MARION, Ind., Nov. 25 .- The settlement of the wage scale in the window-glass industry is hailed with rejoicing here. It means employment and good wages for over six hundred operatives in this county. That the resumption of work should be postponed for more than two weeks meets with a protest, however, from both the manufacturers and the workmen. The fires had been started in several of the factories in anticipation of instructions to resume work immediately. W. A. Garby, of the American window-glass factory at Gas City, said to-day that in his opinion that factory would begin blowing glass to-morrow night. The manufacturers here, except the Marion window-glass factory, which had already adopted the scale demanded by the workmen, state that they will abide by the instructions of the asso-

Muncie Ready for the Y. P. S. C. E. Special to the Indianapolis Journal. MUNCIE, Ind., Nov. 25 .- The Christian Endeavorers will commence to arrive in Muncie to-morrow morning to attend the ninth annual convention of the Indiana association. Accommodations in residences have been provided for 2,000 visitors. The programme commences to-morrow afternoon and meetings will be held continually until Sunday night. The convention of the Junior Order of Christian Endeavor is being looked forward to with great interest by the young people. This will be their first convention and it is still a question as to its success, athough all indications are favorable and if the proper interest is given annual meetings of the Junior Endeavor will also occur. Logansport and

Richmond are candidates for the next conventions and delegates from those places have already arrived to get a good word in early. The finance committee reports that all money subscribed has been paid in.

They have \$4,000 with which to pay the

expenses. Excursion rates commence on

LOGANSPORT, Ind., Nov. 25.-Inquiries keep pouring in concerning D. G. Holimbaugh, alias Alan Rorabaugh, alias Allen Harbaugh, and whose true name is Albert C. Hailibach, the forger who was sent up from here for two years for forgery. Yesterday the county attorney received a letter of the walking-stick with the gold handle not convicted here, as he was wanted there for forging a check for \$30 and passing it Adams received a letter from Deputy United States Marshal O. B. Wiley, of Fort Wayne, saying that if Hailibach was not convicted here that the United States he broke open a mailbox at South Bend and stole a letter containing a check for \$262.78 and got away with it. The government official evidently thinks he has a strong case against the man, for he was anxious to take him off the hands of the Cass

county authorities.

Ducked a Druaken Tailor. Special to the Indianapolis Journal. DECATUR, Ind., Nov. 25 .- Frank Schumocker, a tailor of this city, while in a raving state of intoxication last night attempted to murder his family. Neighbors were attracted by the cries of his wife and children, who fled from home in fear of their lives. About a dozen men seized Schumocker and took him to the St. Mary's river, tied a rope about his ankles and threw him into the stream. He was repeatedly drawn out and plunged in again until almost lifeless. Friends came to his relief in the nick of time. He was taken out of the water and cared for until he regained consciousness, when officers took him to jail. This is the second attempt Schumocker has made to murder his famthe village of New Corrydon, in Section 5, angry crowd and came near being ily. Some time ago he was seized by an strung up.

Gave Children Croton Oil. Special to the Indianapolis Journal. MITCHELL, Ind., Nov. 25.-As a result of an intended joke three children are lying dangerously ill at their homes and a number of others are in a bad way. Several schoolboys, whose ages range from fourteen to sixteen, decided to have some fun and accordingly made a small investment in croton oil and crackers. Pouring a few drops of the oil on each cracker they distributed them among the pupils yesterday afternoon. Shortly after, those who had partaken of the wafers became violently ill and the miscreants confessed. They were immediately expelled from school and this morning warrants were issued for their arrest. The parents of the affected children are very much wrought up over the affair and say the boys shall be punished to the full extent of the law.

Diamonds for Mr. and Mrs. Everett. Special to the Indianapolis Journal.

FORT WAYNE, Ind., Nov. 23 .- At the Soldiers' Club Saturday evening Charles E. Everett, chairman of the Republican Allen county committee, was presented a thirty-second degree Masonic ring, beautifully studded with diamonds. Mr. Everett was sent for and President Hugh Stewart preferred charges against him, which were answered by Charles S. Bash presenting the ring, followed by Col. R. S. Robert-son, who presented Mrs. Everett also with a handsome diamond ring. Both presents were on behalf of the club as a compliment to Mr. Everett for the very effective work he accomplished during the late campaign.

Fatal Fight Over a Girl.

Special to the Indianapolis Journal. ELWOOD, Ind., Nov. 25 .- As the Elwood box factory employes were returning home this evening. Lon Worley and Walter Bottorff, aged seventeen, quarreled over a girl. Bottorff drew a knife and made a vicious attack on Worley, cutting two fearful gashes across his throat, each fully six inches long, and inflicting what is believed to be a fatal wound. Two fingers of the right hand were also cut off. Worley's comrades took him to the factory where a doc-ter dressed up his wounds. He is the only support of a widowed mother. Bottorff was placed in jail. He claims to have acted in self-defense.

Silver Mine in a Stone Quarry.

Special to the Indianapolis Journal. LOGANSPORT, Ind., Nov. 25.-Silver was discovered yesterday in the limestone quarries of Lux & Talbott, west of the city, on the banks of the Wabash river. There are veins of the metal running throughout a certain stratum of the limestone, and samples of the rock have been sent to an assayer for testing. The stratum in which the silver is found is a very hard, flinty formation, and lies about forty feet from the surface. If it is found that there is a sufficient quantity of the precious metal to pay for reducing the ore the stone quarry will be turned into a silver mine.

Preacher's Ear Cut Off. Special to the Indiana polis Journal. VALPARAISO, Int., Nov. 25.-Last night of the Hartford City Glass Company, re- as Rev. Devan, pastor of the Sweedish

VAGARIES OF A CHICAGOAN.

Wills One Cane to Two Brothers an Makes Other Unusual Bequests.

CHICAGO, Nov. 25.-Half of a goldheaded is owned by Henry C. Storey. The other half belongs to his brother, Charles W. Storey. One dollar goes with each half from the city marshal of Plymouth, ask- James B. Storey, a furniture dealer, who ing that Hailibach be turned over to him if | died Nov. 17, left \$15,000 and a will. He also left the cane, which has a history. In the on the proprietor of the Ross Hotel. Sheriff | will the cane and the \$2 are left to his brothers, to be divided as prescribed. Realizing that such a peculiar and unusual bequest should be explanied, the testator in authorities would be glad to have him, as his last will and testament tells why the cane and the \$2 are to be divided between his two brothers. This is the reason: All that Mr. Storey ever received from his father during the latter's life, or from his estate after his death, was this same goldheaded cane and \$2. So, wishing to perpetuate the history of the cane and at the same time show that a man needn't necessarily be given a financial start to become rich, the very odd bequest was made to the brothers of the original recipient of he cane and the \$2. There were other remarkable features in Mr. Storey's will. He loved flowers. He was a patriot and an old soldier, and possessed of considerable sentiment. He was buried in Rosehill cemetery, and \$500 is given in the will to the cemetery company. This is to be placed at interest, and the money it earns is to be spent in placing flowers on Mr. Storey's grave three times a year-Independence day, Decoration day

and Christmas day. Another remarkable feature of the wil s in regard to the widow, Mrs. Sarah E. Storey, and her bequest. She is left the entire \$15,000, with the exception of the \$502 given the brothers and the florists, but the bequest is made that she make her will within three months of the death of her husband. Suggestions as to the manner in which she dispose of the estate accompany the request. This remarkable will was admitted to probate by Judge Kohlsaat yesterday morning. The estate it disposes of is worth \$15,000, and \$10,000 is in personal

In Which Mgr. Martinelli, the New Apostolic Delegate, Participated.

BALTIMORE, Md., Nov. 25.-Mgr. Martinelli, the Roman apostolic delegate, took part in his first public function in Baltimere at the Cathedral this morning. The occasion was the celebration of the feast day of the patron of St. Mary's, the Virgin Mary. The feast occurs on the presentation, Nov. 21, but it was postponed until today. A pontifical mass was sung, beginning shortly after 10 o'clock. There was a procession through the church from the sacristy, in which there were several hundred seminarians and a number of local and visiting priests. Mgr. Martinelli was in the ranks, walking just before Cardinal Gibbons, who brought up the rear. They were both attended by deacons of honor. The officers of less note were: Mgr. Martinelli, celebrant; Father O'Hara, of Brookyn, N. Y., assistant priest; deacon, Father Kelly, and subdeacor, Father O'Farrell, of Richmond, Cardinal Gibbons occupied his throne on the left and there were many priests in the sanctuary. The altar was ablaze with lights and was prettily decorated with flowers. At the conclusion of the mass the sermon was delivered by Father Rohan, of Lowell, Mass., who is a graduate of the seminary.

SEEKING PENSIONS Ex-Slaves Want the Government Pay for Their Support.

BIRMINGHAM, Ala., Nov. 25.-The first national convention of the Ex-slaves' Pension Association of the United States met here to-day for a three days' session, with representatives present from several of the Southern and Southwestern States. The organization was formed in Topeka, Kan., last September for the purpose of securing for all former slaves pensions from the government. Resolutions were adopted urging mmediate action on a bill introduced in the Senate by Senator Thurston, of Nebraska, which contains the demands of the association. State organizations have been formed in Kansas (where the movement began), Texas, Arkansas, Mississippi, Alabama, Missouri, Indian Territory, North Carolina, South Carolina, Tennessee and Oklahoma.

YALE FRESHMEN MEET THE FATE OF THE 'VARSITY ELEVEN.

Princeton Wins by a Score of 14 to 4-To-Day's Football Games at Chiengo and Philadelphia.

PRINCETON, N. J., Nov. 25 .- The freshman football eleven from New Haven met defeat at the hands of the Princeton 1900 team this afternoon by the score of 14 to 4 It was a one-sided contest. The Princetor boys were superior at almost every point and Yale was forced to play its hardest to make the first gains. The Princeton eleven were much heavier than their opponents, and to the superiority in weight, together with the individual brilliancy of the players the victory is due. The visitors were bet ter drilled in team play and strategy. Their interference was quick to form and speedy, but too light to be effective against Princeton's heavy tackles. Yale tried a double pass, and succeeded in making substantial gains by means of it. Yale's light forwards could not hold the Princeton linemen, and Princeton's backs made long gains through the center. For Yale Durston, Sutpin, Sullivan and Corwin did the best work. Hillebrand, Lathrop, Palmer and Reid were con-spicuous for brilliant plays on the Prince-

Cornell and U. of P. To-Day.

PHILADELPHIA, Nov. 25 .- The Cornel footballers reached this city to-night in good condition. Captain Beacham expressed no hope of winning the game, but expected his team to score. He does not think Pennsylvania will score more than eighteen or twenty points. Pennsylvania put in an hour at practice this afternoon. The line-up will be the same as in last week's Harvard game, with the possible exception of left end, where Hedges may relieve Boyle, who has a severe cold. Th Ithicans' line-up will be: Taussig, right end; Sweetland, right tackle; Clark, right guard Sennell, center; Reed, deft guard; White, left tackle; Tracy, left end; Bassford, quar-ter back; McKeever, right half back; Beacham, left half back; Ritchie, full back. Dashiel, of Lehigh, will act as umpire; Cochran, of Princeton, referee, and Newell, of Harvard, or Cordon, of Dartmouth,

Wisconsin and Northwestern.

CHICAGO, Nov. 25 .- The sturdy champions of Wisconsin University football honor, reached Evanston to-night confident of victory in the battle with the Northwestern University on 'varsity field, Evanston, tomorrow morning. The wearers of the car-dinal announced that the score is to be in the vicinity of 24 to 0, with the goose egg to the credit of the Evanstonians. The Methodists, with equal modesty, make counter claims with a reversal of figures, declare that the oft-sung charge of the brave six hundred was a peaceful promenade in comparison with the onslaughts they are going to exhibit for the edification and instruction of the terrible men from Madison. Wisconsin's recent brilliant victory over the heavy Minnesota team places the odds in favor of the Badgers, but the Evanston rooters are undismayed and confidently expect to feed their visitors crow for their Thanksgiving luncheon.

Boston A. A. Vs. Chicago A. A. CHICAGO, Nov. 25.-The Boston Athletic Association football team reached Chicago to-night, and was met by a committee of the Chicago Athletic Association, whose team will do battle with the Easterners at athletic field to-morrow forenoon. With the exception of Nate Anthony the Beaneating gladiators' line-up will be the same as that which met Harvard. Dick Bullard, the Harvard man, will take Anthony's place. Joe Upton, of Harvard, will act as umpire The Chicago team is not in the best of condition, owing to the recent expulsion of several of its prominent members, but its supporters laugh at the Bostonian claims

of a shutout, and promise to make it warm for the Easterners, whether the promised cold wave materializes or not. The Coliseum Game. CHICAGO, Nov. 25 .- The gridiron gladiators from Ann Arbor arrived in Chicago to-night and to-night are resting at the Chicago Beach Hotel for the battle at the Coliseum to-morrow afternoon with the Chicago University football team. The Wolverines are confident of victory, and the mob of rooters who accompany them can see nothing in prospect but a shutout for the Chicago men. The latter, however, are trained to a fine edge and stoutly maintain that they will carry the marcon banner to a glorious victory. The prospect is

for a fierce-contest before the immense audience which the advance sale of seats

assures. Football Profitable. NEW YORK, Nov. 25 .- H. S. Vanduser. of the University Athletic Club, who handled the financial end of the big football game at Manhattan Field last Saturday between Yale and Princeton, has made up his statement of receipts and expenditures, and it was to-day submitted to the local committee. Deducting all expenses, Yale will receive \$14,282.14 and Princeton gets only 1 cent less. The profits of the game were \$28,564.17. The statement shows receipts at gate. \$34,653; programme, \$2,500; total ex-
